...where it's great to create!

How To: Bake Your Wine Glass at Home!

1. Let your wine glass air dry for 4 days before baking.
2. Place your glassware in a COLD OVEN. (You can place it on a cookie sheet, if desired, for balance.)
3. Set the oven to 325 degrees, and turn it on.
4. When the oven REACHES 325 degrees, set your timer for 30 minutes.
5. When the glassware has baked for 30 minutes, turn the oven off, and DO NOT OPEN THE OVEN.
6. When the oven and glassware are completely cool, open the oven, remove the glassware, and enjoy!

Remember: Hand painted = Hand wash.

No dishwasher or microwave, please.
